

Contents

Experimental and mathematical analyses of process parameters for roll compaction of steel powder Y.P. Fatangade, N.B. Dhokey and V.S. Poddar .....	295	Synthesis and characterization of CCT00.5-BT0.5/epoxy hybrid ceramic polymer composite for electronic applications S. Mishra and P. Mishra .....	372
Synthesis and characterization of Co-based alloy A. Hazra and M. Mallik .....	301	Non-coupled finite element modelling of electromagnetic compaction of Al 6061 powder in Al 6063 tube T. Nadimetla and S. D. Kore.....	377
Magnetic properties of iron powder sintered by medium-frequency electrical resistance sintering R. Astacio, P. Urban, F. Ternero, R.M. Aranda and J.M. Montes.....	309	Electrical discharge consolidation of Al and Ti powders F. Ternero, R.M. Aranda, P. Urban, R. Astacio and J.M. Montes.....	385
Development of spinel magnesium aluminate by modified solid state process and its characterization S. Mukherjee.....	314	Plasma sprayed Cr <sub>2</sub> O <sub>3</sub> ceramic coating for the surface modification of Al-Si (LM13) alloy: Morphology and hardness study A. Wazeer, P. Mondal, A. Das and A. Sinha .....	393
Synthesis and characterization of ZrB <sub>2</sub> -SiC composite powder S. Sarkar, M. Kumar Mondal and M. Mallik.....	320	Low cost porous Ti-6Al-4 V structures by additive manufacturing for orthopaedic applications P. Mondal, A. Wazeer, A. Das and A. Karmakar.....	398
Machine learning guided study of composition-coefficient of thermal expansion relationship in oxide glasses using a sparse dataset B.M. Tripathi, A. Sinha and T. Mahata.....	326	Effect of Sm <sub>2</sub> O <sub>3</sub> addition on the dielectric behaviour of BaTiO <sub>3</sub> K.R. Kambale, A. Mahajan, S.P. Butee, A.R. Kulkarni and N. Venkataramani.....	404
Consolidation of iron powder by electrical discharge R.M. Aranda, F. Ternero, R. Astacio, P. Urban and F.G. Cuevas.....	330	Effect of precipitation hardening on wear behavior of premix Al7075 hybrid matrix composites S.U. Dangarikar and N.B. Dhokey .....	410
Zinc powder preparation from zinc dross S. Prasad .....	336	Processing and characterization of Al-Si-Mg alloy made through 3D printing and comparison with equivalent cast alloy S. Pratap Singh, R. Kumar Gupta, A. Agarwal and Govind .....	422
Predicting impact strength and hardness of aluminium & tungsten carbide nano-composite synthesized by PM S. Rokkala, V.K. Ambati, D.K. Mellam, R. Nethala and B.V.S.A. Kumar.....	342	Assessment of the tribological behavior of a metallic tribopair: LM25 alloy-Si <sub>3</sub> N <sub>4</sub> composites against EN 31 steel Z. Ahmad, S. Khan, R. Câmara Cozza, R. Penchaliah and V. Verma .....	431
Processing, microstructure and mechanical properties of in-situ Al-TiB <sub>2</sub> metal matrix composites B. Sengupta and A. Basu Mallick.....	351	Evaluation of the effect of excess PbO on piezoelectric properties of high Zr -PZT ceramics P. Karajagikar, S.P. Butee, K.R. Kambale and P. Kumar B.....	438
High-performance lubricants in powder compaction: An overview of their benefits V. Paris and S. Mousavinasab .....	358	Influence of heat treatment on the microstructure, hardness and fracture toughness of premixed iron based hardfacing weld overlay R.R. Garbade and N.B. Dhokey .....	442
IoT-based real-time online monitoring system for open ware FDM printers S. Kakade, A. Mulay and S. Patil .....	363		
Mechanical alloying and amorphization of Ti <sub>75</sub> Cu <sub>25</sub> alloy P. Urban, R. Astacio, R.M. Aranda, F. Ternero and J. Cintas .....	368		

# materialstoday: PROCEEDINGS

International Conference on Powder Metallurgy

Guest Editors: N.B. Dhokey, Bharat Panigrahi, Deepak Patnaik and Malobika Karanjai
